Maths (20 minutes)

Today we are learning about measuring ingredients.

<https://whiterosemaths.com/homelearning/early-years/alive-in-5-week-3/>

Task: Have a go at making a recipe! Here is a playdough recipe, but if you would like to make something else, go for it!

#MathsEveryoneCan

Have a go at making your own playdough.  
Remember to measure out your ingredients carefully.

**No Cook Playdough Recipe**

- 2 cups of flour
- $\frac{1}{2}$  cup of salt
- 2 tablespoons of cream of tartar
- 2 tablespoons of oil or baby lotion
- 1 cup of hot water

1. Combine the dry ingredients in a bowl, add the oil or baby lotion and then the water.  
You could also add some food colouring here if you would like a colourful dough.

2. Stir everything together and then knead the dough until you are happy with the consistency.

White Rose Maths

Or try one of these ideas-

## Compare Capacity (2)

### Sand

Provide each child with a bowl or cup and a selection of different sized spoons and ladles.

Ask them to investigate how many small spoons it takes to fill their container. How many large spoons?

How many ladles? Which sized spoon was the best? Why?

### Mud Kitchen

Provide a variety of pans, bowls, spoons and ladles for the children to use. Add daily recipes on a chalkboard to encourage the children to measure out ingredients. They could also design and create their own recipes.

### Enhancements to areas of learning

### Outside

Provide a small matchbox for each child. Ask them to hunt for things to put inside. Points could be awarded for specific criteria such as the most items, the prettiest leaf, the smallest pebble, the largest item, the softest item, something yellow etc.

### Role Play

Set up a pop-up café or picnic area providing a variety of jugs and beakers. Encourage the 'waiters' to take drinks orders and bring out the drinks. Play alongside the children to model the language of nearly full, half full, nearly empty etc and enjoy your delicious drinks! (Discuss why we don't want the cups to be absolutely full!)

You could play this game too-

Extra  
curricular

Building a den:

Have a go at making a den! Use anything in your house, such as blankets, towels, chairs, tables, sticks, pillows and boxes. You can build it however you like and turn it into anything, such as a castle or spaceship! Let your imagination go wild!

**Don't forget to post a picture or video of your den!**

Literacy

We are going to be retelling the story of 'Lost and Found'. Today I would like you to start to make your own story book. You can do this by either making 1 page in your book for each part of the story or by making a folded book using an A3 sheet of paper (a zigzag, concertina book)

Task: Today you are just completing the missing pictures below
